

# MS VISIO PLUGIN

## MS VISIO

The MS Visio Plugin contains the popular Microsoft Visio drawing program. This program can be used to diagram any type of system in a client's building including burglar/fire systems, cctv systems, fire extinguisher or sprinkler system layouts, etc. Great for documenting any type of system.

What's unique about containing Visio in a Plugin is that the Plugin automatically loads the current drawing for your customer when your customer's account is selected. When you switch from client to client, you will automatically see the current drawing for each client you switch to.

More about Visio  
Microsoft Office Visio makes it easy for business professionals to visualize, explore, and communicate complex information. Go from complicated text and tables that are hard to understand to Visio diagrams that communicate information at a glance. Instead of static

pictures, create data-connected Visio diagrams that display data, are easy to refresh, and dramatically increase your productivity. Use the wide variety of diagrams in Office Visio 2007 to understand, act on, and share information about organizational systems, resources, and processes throughout your enterprise.

Add the Visio Plugin for only \$295.00  
MS Visio sold separately.
