## MY PLUGIN

Despite a wide variety of optional Plugins, you may sometimes find a need to record even more client information that doesn't fir anywhere else. This unique Plugin is designed to this type of client information.

The caption or description to the left of each field can be modified by you the user. This gives you the completely customize how your program holds client information.

Additionally, the Notes tab contains a notepad to hold an unlimited amount of data.

My Plugin is sold separately for \$295.00 and can be added to your program at any time.

## **MY PLUGIN**

- Holds random client information
- User-definable Labels
- Random notes can be entered on the Notes tab
